by Mystical Sun

Style - Electronica/Ambient/Chill/World/Groove

Release date - January 2007

Format - CD and Digital

Catalog: Cyber1027

UPC #: 876585003299

"Deeperworlds" the new release from Mystical Sun is an expansive cinematic travelogue through a constellation of sound worlds, each filled with unique sonic forms. They are bound together by the common themes of vastness, transcendence, exploration, initiation, feeling and returning to the source of all vibrations.

The songs on "Deeperworlds" grew and evolved into distinct styles and expressions over a period of about a decade. The result is a unique document of influences from life and electronic music evolution during that period.

"I see 'Deeperworlds' as composed of scenes from lost forests, black holes, ethereal dream space, ancient epochs and other worlds." - Richard (Mystical Sun)

Mystical Sun is an artist who creates cinematic sound worlds. He uses a wide array of audio sources in his productions and builds his own custom software instruments to explore the frontiers of sound design. The sound of Mystical Sun could be described as a deep and mystic tone emanating from a radio transmitter in a parallel dimension. Minimally expressed with a potent essence, Dawn is the vocals of Mystical Sun; leading one to their spirit's calling.

About Cyberset: Our growing family of artists blend musical elements of world, ambient, dance, vocal, and urban genres into fresh sounds that share the positive intentions and global reach of modern New Edge culture. Cyberset artists embody this emerging culture that emphasizes community, personal growth, social conscience, and ecological awareness. Cyberset music is available in digital format from all the major download sites and services as well from our own online catalog. Additionally, we offer CD's from many of our artists shipped directly from our warehouse.
